

# Fortune Teller

For my fortune app, I want to start with four options in boxes, evenly spaced. When the user clicks one of them, it will move out and in the number of times the color name is long. Example:

The same action for happen when the user selects a number on the next layer. The fortune would then appear underneath the boxes.

# Font Styles:

Headers & words/numbers on virtual fortune teller will

be: *Mr. Bedford*

<i>Orange</i>	<i>1</i>
<i>Purple</i>	<i>2</i>
<i>Yellow</i>	<i>3</i>
<i>Green</i>	<i>4</i>

Intro Paragraph & Fortune will be in **Comfortaa**

Sample Comfortaa paragraph

# *Get Your Fortune*

Click on an option below to receive your fortune

Reveal fortune here when after user  
selects all options
